Sanplast - We create Pure Pleasure of bathing in each bathroom area

Are you planning a showering area, or maybe bathing place? Do you need a comfortable washing place? Bathtubs, shower enclosures, shower trays, washbasins, hydromassage systems SANPLAST brands perfectly match any bathroom area. And this is possible regardless of whether you are a fan of long bathing or pure showering pleasure. Beautiful, classical and excellent with the quality Sanplast brand products are the perfect choice for each bathroom.

Fuerta Mineral series are bathtubs made of the well-known mineral cast. The mineral cast is characterized by excellent utility and aesthetic properties. The surface is extremely smooth, making it easy to clean, and also resistant to the development of fungi, mold and bacteria. The surface of the bathtubs is also resistant to various types of stains, discoloration or abrasion and scratches. Subtle shapes and delicate edges give the bathtub an elegant design. The availability of white gloss or matte color gives new arrangement possibilities.

Space Line bathtubs are a good choice for all those who value non-standard solutions. Series ensures a touch of classic elegance. Space Line is an offer for both traditional and modern bathrooms. The bathtubs are made of sanitary acrylic and come with a square adapter with a siphon cover included. The straight bathtub line, optimal depth and angle of the backrests make Space Line bathtubs a guarantee of comfort, convenience and relaxation. The adapter with a siphon cover not only has an aesthetic function, it also makes the bottom of the bathtub completely smooth. A long hot bath in an oval bathtub is a bit of luxury that you can ensure every day in your own bathroom. Space Line bathtubs add style, elegance and break the style of any interior in an interesting way.

The bathroom is a unique place inside each house. We do many activities in bathroom, so we need the space in which we can rest and relax after a hard day. The functionality of this room affects the overall comfort of use. The Free Line bathtub is a universal choice. The Free Line series, due to their universal character and functionality, is a range of products available in many sizes and shapes. We have designed bathtubs with unusual shapes, thanks to which you can not only introduce the element of modernity to the bathroom, but you can also make your bathroom have more free space. Choose a hexagonal bathtub and see how simple it is. Create a harmonious arrangement and enjoy the moment just for yourself. We offer classic solutions starting from symmetrical and asymmetrical corner bathtubs, as well as interesting rectangular and oval bathtubs with a centrally located water outflow. Thanks to this, even the smallest bathroom can turn into a luxurious bathing room. The Free Line bathtubs offer includes double backrest models as well as classic solutions perfectly suited to your needs.

Having a small bathroom does not mean that you have to give up comfortable bathing in a bathtub and equipping it with products in line with the latest trends. Their device is now much easier because there are many products available on the market dedicated to small bathrooms. Small does not mean uncomfortable. Inserting a bathtub into a small bathroom can be an interesting and beneficial solution. In the case of small areas, it is worth putting on asymmetrical bathtubs, which primarily take up less space. Seemingly small dimensions of asymmetrical bathtubs provide as much space for bathing as those with classic shapes. The secret lies in the proper profiling of the interior of such a bathtub. For enthusiasts of the classics, a rectangular bathtub version is available in the 4 most popular dimensions.
